PROFILE

Bringing **2.4 years of experience** in crafting seamless, user-focused digital experiences. Skilled in usability, responsive design, and creating intuitive interfaces for modern products.

WORK EXPERIENCE

SVMedcity Sep 2025 - Present
Hospital & College Institute (Website)

- Designed a user-friendly hospital website/app for easy navigation.
- Focused on simple appointment booking and patient information access.
- Improved UI layout for doctors, students, and patients.
- Ensured accessibility with clear fonts, colours, and icons.
- Enhanced overall user experience through clean and responsive design.

DoctIQ (Freelance - 2026)
Healthcare SaaS

- Designed a high-converting healthcare SaaS landing page with improved user flow and CRO.
- Simplified complex AI healthcare workflows into intuitive, user-friendly interfaces.
- Built a responsive design system with reusable components for web and mobile.
- Improved Information Architecture (IA) and navigation for better user experience.
- Created a scalable healthcare UI with modern branding, accessibility, and interactive components.

Zukun Mar 2024 - Sep 2025
Zeneazy – Visa & Staffing Services (Website)

- Designed UI for students, job seekers, and tourists to explore study, work, and travel abroad.
- Organized university/course fees, admission, and visa details for easy comparison.
- Streamlined visa application flow with clear steps and progress tracking.
- Created mobile-friendly layouts with smooth navigation.
- Developed marketing content for digital promotions.
